

**MINUTES OF THE
OTTER TAIL COUNTY BOARD OF COMMISSIONERS
Government Services Center, Commissioners' Room
500 Fir Avenue W., Fergus Falls, MN
Wednesday July 5, 2006
9:30 a.m.**

Call to Order

The Otter Tail County Board of Commissioners convened Wednesday July 5, 2006, at 9:31 a.m., at the Otter Tail County Government Services Center with Commissioners Roger Froemming, Chair; Dennis Mosher, Vice-Chair; Bob Block, Syd Nelson, and Malcolm Lee present.

Approval of Agenda

Motion by Lee, second by Nelson, and unanimously carried to approve the County Board agenda of July 5, 2006, with the following additions:

11:20 a.m. – Ditch Inspector, Randy Wasvick – Ditch No. 37
Performance Evaluation Summary

Approval of Minutes

Motion by Froemming, second by Block, and unanimously carried to approve the County Board minutes of June 27, 2006, as mailed.

Approval to Pay Bills

Motion by Mosher, second by Lee, and unanimously carried to approve payment of the County Board bills per Attachment A of these minutes.

Request for Approval

Motion by Nelson, second by Mosher, and unanimously carried to authorize the Highway Engineer to purchase a John Deere Model 6420 Tractor with John Deere Model 640 Loader as per MN State Bid, in the amount of \$61,690.66.

South Turtle Lake Discussion

Highway Engineer, Rick West, reported that a meeting will be held on Saturday, July 8, 2006, at 10:00 a.m., in Underwood regarding the South Turtle Lake Storm Water System. Mr. West will be contacting engineering companies for outlet design.

Performance Evaluation Summary

Motion by Mosher, second by Block, and unanimously carried to approve the positive Performance Evaluation Summary of Physical Plant Manger, Rick Sytsma, as presented, and to direct that the summary be placed in his personnel file.

Viking Library System

County Coordinator, Larry Krohn, provided a handout of the history and organization of the Viking Library System. He indicated that the Viking Library Board meets quarterly and the Executive Board meets monthly. Mr. Krohn explained that with a federated library system,

the library is independent with employees being city employees. A consolidated library system would employ its own staff. A new Bookmobile has been ordered.

Ethanol Plant Discussion

Attorney, Kent Mattson, reported that the Ethanol Plant would contribute over \$110,000,000 in total economic impact per year to the region. From the farming perspective the plant will utilize approximately 19,500,000 bushels of corn annually. The anticipated job level is at 40 jobs with payroll exceeding \$1,000,000.00. Short term impact will be expenditures for plant construction; labor, materials, and other supplies associated with a \$100 million plant construction. About eighty trucks a day will be delivering to the plant. The trucks will need fuel and repairs, which would be locally provided. According to Mr. Mattson, the plant will spend \$46.7 million for goods and services annually. The spending for production for the 50 million gallon plant will generate \$209 million of new gross output annually to the local economy. This will support the creation of as many as 836 jobs in the area. The annual operations of the plant will increase household income in the local economy by nearly \$30 million annually. He noted that this is the single largest economic development project to occur in Otter Tail County for decades.

Motion by Block, second by Nelson, and unanimously carried to accept the following proposal:

Proposal Otter Tail County's Assistance

Otter Tail County has supported the Otter Tail Ag Ethanol Plant project and continues to support the project. Otter Tail County has agreed to lend its hand by making a loan available to the plant and facilitating the issuance of bonds for further funds needed to construct the plant. The details of the Abatement Bond Loan need to be finalized.

On May 9, 2006, the County Board set their preferred parameters of the bonding as a 10 year repayment period and that the County would keep the interest on the debt service fund to pay for administrative costs.

Otter Tail Ag requested that the term of the repayment period be as long as permitted by law, not to exceed 20 years. Otter Tail Ag is agreeable to the 10 year repayment period, after an initial construction period of approximately 18 months. The company had hoped for 15, but can accept 10 if an accommodation can be reached on the interest for the debt service fund.

The County had agreed to a subordinate lien position which would have put the County in a second lien position after the 55 million dollar loan from the senior lender. With the strategy of using tax exempt bonds, the result is now that the County will be in an improved shared lien position, still behind senior loans, but to a lesser amount.

The debt reserve fund is estimated at \$634,000.00 on the abatement bonds. Interest earnings are estimated at 4%. If Otter Tail County were to retain the interest on the debt reserve fund to cover administrative costs, the County would be paid approximately \$25,000.00 per year. Over the course of the loan, that would be \$275,000.00. The anticipated out-of-pocket expenses to Otter Tail County annually, as a result of the

abatement loan, would be approximately \$1,500 to \$2,000 for a continuing disclosure certificate. It is anticipated that administrative time will be minimal.

Rather than Otter Tail County retaining approximately \$25,000.00 to cover administrative costs, Otter Tail Ag is proposing that the County be paid a flat administrative fee of \$5,000.00 per year to cover the administrative costs to the County. Based on estimates, this fee should be more than enough to make the County whole on annual out-of-pocket and administrative costs. The company also proposes that the County be paid \$10,000.00 as a fee to cover staff time associated with implementing the bond process

Commissioner Lee was absent.

**Public Hearing for Abatement of Proposed
 Ethanol Plant in Fergus Falls Township &
General Revenue Bonds for Solid Waste Equipment**

At 10:00 a.m., Chair Froemming announced that the meeting was convened for the purpose of conducting a public hearing and considering a resolution regarding the abatement of the property tax levies of certain properties located within the County pursuant to Minnesota Statutes, Sections 469.1812 to 469.1815. Chair Froemming opened the Public Hearing for public comment.

Evangeline Streeter questioned, "When you say all the taxes are going for this abatement, precisely what do you mean by all taxes? Is that taking away all the school taxes and all those that have been special voted?"

County Attorney, David Hauser, explained the consequence to any individual taxpayer would be neutral, the tax payer would pay the same taxes that they would normally pay. The school money would go to the school, the township money would still go to the township. The money that would have gone to the County is now dedicated for the purpose of paying the bonds. That money gets replaced by Otter Tail Ag.

Ms. Streeter went on to question valuation of property to collect more taxes. She went on to explain that a corn producer had been discriminated against and was not contacted. Jerry Larson, one of the development leaders, stated that no one had been discriminated against as far as candidates for the Board. They looked for people who could volunteer their time.

Commissioner Nelson stated that the County Board wants to help people economically and they think this is a good venture.

Another member from the audience questioned if he could start a business using abatement to guarantee a loan. Mr. Hauser explained that the County does have an Abatement Policy and a Business Subsidy Policy. There are criteria and standards that need to be met and only 10% of the taxing capacity can be used.

A question was raised as to how it was determined which property would be abated. County Auditor, Wayne Stein, explained he had a certain amount of money he needed and he used ag properties using the 2006 taxes.

A question was raised as to whether the County is free to use the money from the taxes. Mr. Hauser stated that the taxes are dedicated to paying off the bonds for an eleven year period. The money is replaced by the payback agreement with Otter Tail Ag, which would be revenue neutral. It was further questioned, the ethanol plant has two years before starting to pay back, what happens in the meantime. Carolyn Drude, Financial Consultant for the County from Ehlers & Associates, Inc., explained that money from property taxes would be used to pay principal and interest on the bonds. This is paid back by capitalize interest which is included in the bond issue. She stated that is why the bond issue is for more than the \$5 million. The taxes proposed to be abated by the County on the property is for taxes payable in the years 2008-2017. It is not going to start with 2006.

Lengthy discussion followed.

After completion of the Public Hearing, Commissioner Block introduced the following resolution and moved its adoption:

**RESOLUTION AUTHORIZING PROPERTY TAX
ABATEMENT FOR OTTER TAIL AG ENTERPRISES, LLC
ETHANOL PLANT PROJECT
OTTER TAIL COUNTY RESOLUTION NO. 2006 - 53**

BE IT RESOLVED by the Board of Commissioners of Otter Tail County, Minnesota, as follows:

1. The County intends to issue bonds in an amount up to \$6.4 million and loan approximately \$5 million of the bond proceeds to Otter Tail AG Enterprises, LLC (the "Borrower") to pay part of the costs of acquiring and constructing an ethanol plant (the "Plant") in the County. The bonds will be payable primarily from the Abatement authorized by this resolution which will be retained by the County for payment of debt service on the bonds.
2. Based on the representations of the Borrower, it is hereby found and determined that the Abatement will assist the Borrower in financing the costs of acquiring and constructing an ethanol plant which will provide the following public benefits:
 - a) The Plant will assist the local economy through the creation of approximately 40 new high-quality jobs in the County with an aggregate payroll of \$1,500,000 annually;

- b) The Plant is estimated to provide approximately \$110,000,000 in overall economic impact to the County;
 - c) The Plant will benefit the local agricultural community by creating a new market for corn that will utilize approximately 19,500,000 bushels of corn each year;
 - d) The Plant's byproducts will be used to produce approximately 160,000 tons of high-quality livestock feed additives each year; and
 - e) the Plant will further both state and national renewable energy policy goals by producing fuel that will reduce toxic emissions thus improving air quality.
3. In accordance with Minnesota Statutes, Section 469.1813, Subd. 1 (a) this Board expects that the benefits to the County of the Abatement will at least equal the costs to the County of the proposed agreement with the Borrower.
 4. In accordance with Minnesota Statutes, Section 469.1813, Subd. 1 (b) the Board hereby finds and determines that the proposal is in the public interest because it will:
 - (i) increase the tax base of the County;
 - (ii) provide employment opportunities in the County;
 - (iii) provide or help construct public facilities; and
 - (iv) finance or provide public infrastructure.
 5. Pursuant to Minnesota Statutes, Sections 469.1812 to 469.1815 (the "Act"), the County hereby approves an abatement of 100% of the property tax revenue to be levied by the County and collected in the years 2008 through 2017 for the properties identified in Exhibit A (the "Abatement").
 6. The proceeds of the Abatement will be used by the County as the primary source of payment of the Bonds.
 7. The amount of abatement proposed for each parcel does not exceed such parcel's local tax rate multiplied by the total net tax capacity of such parcel.

The motion for the adoption of the foregoing resolution was duly seconded by Commissioner Mosher, and upon vote being taken thereon the following voted in favor thereof:

Yes: Block
 Froemming
 Mosher
 Nelson

No: 0

**Public Hearing Regarding a Preliminary Resolution
Relating to Solid Waste Bond Project
On Behalf of Otter Tail Ag Enterprises, LLC**

County Attorney, David Hauser, explained that the public hearing was needed for the issuing of Solid Waste Bonds up to \$20 million. These are revenue only bonds, the County does not pay back these bonds. The bonds can only be used for solid waste disposal. In this case in creating the ethanol there is a by-product called stillage which can be used for feed. This has to be dried out and processed. The bonds would be for the purchase of equipment to dry the stillage and process it. The stillage can then be shipped and sold and becomes a saleable commodity so it is a recapture of what would be solid waste which makes it eligible for these bonds. An application has to be made to the State for these bonds.

After completion of the Public Hearing, Commissioner Nelson introduced the following resolution and moved its adoption:

**PRELIMINARY RESOLUTION RELATING TO
SOLID WASTE BOND PROJECT ON BEHALF OF
OTTER TAIL AG ENTERPRISES, LLC
OTTER TAIL COUNTY RESOLUTION NO. 2006 - 54**

WHEREAS, this Board has held a public hearing in connection with a proposal by Otter Tail Ag Enterprises, LLC (the "Borrower"), a limited liability company, to undertake a project in Otter Tail County (the "County") pursuant to the Minnesota Municipal Industrial Development Act, Minnesota Statutes, Sections 469.152 to 469.1651, as amended (the "Act") consisting generally of the acquisition and installation of solid waste processing facilities including a centrifuge, dryer, evaporator and methanator in connection with a proposed ethanol plant which will have an annual production capacity of approximately 55 million gallons and be located on County Highway 116 approximately three miles north of Minnesota Highway 210 (the "Project"); and

WHEREAS, the requested financing for the Project consists of the issuance by the County of its Revenue Bonds (Ethanol Plant Project), Series 2006, in an aggregate principal amount of up to \$20,000,000 (the "Bonds").

BE IT RESOLVED by the Otter Tail County Board of Commissioners (the "County Board"), as follows:

1. Preliminary approval is hereby granted to the Project and the issuance of the Bonds and this Board hereby expresses preliminary intention to issue the Bonds for the Project in the amount of up to \$20,000,000. This County Board has a reasonable expectation that it will reimburse expenditures on the Project with the proceeds of the Bonds.
2. It is hereby found, determined and declared that the Project furthers the purposes stated in Section 469.152 of the Act.
3. In the judgment of the County Board, based upon the representations made by the Borrower, the Project as proposed would not be undertaken by the Borrower but for the availability of industrial development bond financing.
4. The Borrower has agreed to pay any and all costs incurred by the County in connection with the Project whether or not the Project is approved by the Minnesota Department of Employment and Economic Development and whether or not the Project is carried to completion.
5. Submission by County staff to the Minnesota Department of Employment and Economic Development of an Application for Approval of the Project is hereby approved, together with all such supporting documentation as may be required by law.
6. County staff shall make application for allocation of issuance authority for the Bonds under Minnesota Statutes, Section 474A and, with funds provided by the Borrower, pay the application fee.

The motion for the adoption of the foregoing resolution was duly seconded by Commissioner Mosher, and upon vote being taken thereon the following voted in favor thereof:

Yes:	Block
	Froemming
	Mosher
	Nelson
No:	0
Absent:	Lee

Adopted at Fergus Falls, Minnesota, this 5th day of July, 2006

Dated: _____ OTTER TAIL COUNTY BOARD OF COMMISSIONERS

By: _____
Roger Froemming, Board of Commissioners Chair

Attest: _____
Larry Krohn, Clerk

Carolyn Drude, Bond Representative from Ehlers & Associates, discussed items that need to be considered before the sale of the bonds takes place. She suggested that the agreement with the ethanol plant be in place, the equity dollars are confirmed, and the solid waste financing is finalized. She discussed a timeline for the sale of the bonds.

Attorney, Kent Mattson, stated that some of the issues in the resolution need to be worked through and the funds are not necessarily needed by September 1, 2006.

The Public Hearing closed at 10:53 a.m.

Phelps Mill River Hills Development Road Entrance

Property Owner, Linda Reese, reviewed the proposed entrance placement to Phelps Mill River Hills. She expressed concern for the township as far as any legal costs. The development company has suggested that they will sue the township if the township does not take on the responsibility of the road. The township does not want to take the responsibility of the road because of the unsafe placement of the entrance. Another issue of concern is the wetlands to the west. Ms. Reese stated that the public depends on County officials to protect the public safety and interest. As it is, the proposed entrance sits 60 feet from a 90 degree curve, which makes the driver from the east negotiate a 90 degree blind curve and immediately another reverse 90 degree entrance into the subdivision. This endangers children on bikes and adults in vehicles. Ms. Reese stated that this is not one person's opinion. Ms. Reese stated that she had discussed the location of the entrance with Steve Bucholz from the Detroit Lakes DOT permit office. He allowed her to use this quote, "The DOT would put the entrance as far north as they could to get the biggest spacing possible". He also stated that 60 feet between entrance and curve is very short, if MNDot were doing it they would put a bypass in a right turn lane. At a township board meeting it was resolved that Maine Township will not accept the responsibility for the road unless the entrance is placed 200 feet to the north of the curve.

Ms. Reese had also discussed the entrance with an area mail carrier who stated that the United States Postal Service probably would not allow their carriers even to go into the entrance because it is a safety issue. The area bus driver stated that the corner is too dangerous to put an entrance on.

Mr. Hauser stated that the County Board acted and approved the Preliminary Plat, with conditions. He stated that if the conditions have been met and the Final Plat comes in, we're bound to approval.

Land & Resource Director, Bill Kalar, stated that under the Wetland Conservation Act there is a process called sequencing that must be done whenever a wetland is impacted. Mr. Kalar stated that initially the presentation to the Planning Commission indicated that the road had to be where it was ultimately located because the first consideration in sequencing is avoidance – can the impact be safely avoided? He went on to explain the process of how the Preliminary Plat had been approved with conditions at the November 29, 2005, County Board meeting. At this time some of the conditions have not been met.

Randy Wasvick, Maine Township Supervisor, stated that at a township meeting it was agreed that the developer would cut down the hill, take down the trees, and seed the area to grass. This would take down the visible part of the safety issue. At a previous meeting with township supervisors, Highway Engineer; Rick West, Land & Resource Director; Bill Kalar, and the Petersons who own the property, the Petersons had agreed to cutting down the hill and removal of trees. At this time, the Petersons do not want the hill cut down or the trees removed, so the safety concern still exists.

Ms. Reese requested that someone talk with BWSR, who has been contracted to replace wetlands to the west. She stated that maybe he could look at the wetlands to the east and see that the road is in an unsafe location. Mr. Kalar stated that BWSR might not have the ability to say this it not where the road should be. Bill will check into this and send a letter to Ms. Reese with his findings.

Barlow Settlement Agreement

Solid Waste Director, Mike Hanan, presented a letter addressed to the City of Perham regarding reimbursement to the counties for fifty per cent of the HDR expert witness fees and expenses as was agreed upon. No County Board motion was needed. A letter had been discussed at a previous County Board meeting. Chair Froemming signed the letter.

License Applications

Motion by Nelson, second by Mosher, and unanimously carried, to approve the following application for license:

Tamara Jo Hopwood

Off-Sale 3.2 Malt Liquor

Perham Co-op Creamery

Perham Oasis

PO Box 247

Perham, MN 56573

Exempt Permit Applications

Motion by Mosher, second by Froemming, and unanimously carried to approve, with no waiting period, the LG220 Application for Exempt Permit as submitted by the Pelican River Pheasants Forever – Chapter 690 for an event scheduled for September 16, 2006, at The Club located at the junction of County Highway 59 and County Road No. 4.

Motion by Nelson, second by Block, and unanimously carried to approve, with no waiting period, the LG220 Application for Exempt Permit as submitted by the Perham Ducks Unlimited #56 for an event scheduled for September 14, 2006, at The Cactus located at 43521 Fort Thunder Road.

Ditch No. 37

County Ditch Inspector, Randy Wasvick, reported on a development in the City of Underwood. The township road originally runs down along the lake and is being moved up behind the development. There is a manhole on top of the Ditch System. Mr. Wasvick suggested bringing the tile down the lot line so that the property owner would not lose the lot.

There would need to be a 16½ foot easement on both sides of the tile. This would be a minor change made at the developer's expense. The property owner has agreed to this change. Motion by Mosher, second by Nelson, and unanimously carried to authorize the tile be brought down the lot line at the developer's expense.

Adjournment

At 12:00 noon, Chairman Froemming declared the meeting of the Otter Tail County Board of Commissioners adjourned until Tuesday, July 11, 2006.
